## WHAT TO BRING TO THIS COURSE

Essentially you want to pack as though you are doing an extended trip into the back-country.

- If you are a guide, you will pack as though you are leading a multi day trip.
- If you are SAR pack as though you are out on a search for an extended period of time.
- And if you work in any other discipline that has you in a remote location (Trapline, pipeline, environmental work etc) then pack for an extended period of time, what you might normally bring along with you to a job-site that is remote where you might be out for several days up to a week.

This equipment will not be required on day 1, but you bring should bring it along in case.

Please ensure that any outdoor equipment you will be wearing/using is not something you mind getting dirty (possibly really dirty). Be sure to bring along extra gear to keep you warm.

If you can find an old pair of pants that you don't mind cutting up, please bring those along as well.

In addition to the list below, any other items you wish to bring along to supplement is fine.

### **Bring:**

- pen and paper
- Food/Snacks – You will be responsible for your own meals, though we may have snacks out, and we will have tea, coffee and hot chocolate available in the classroom.
- Water
- Dress comfortably

### **Equipment List**

- Pack (guide pack **if you are a guide**, otherwise a pack for your specific job)
- Therma Rest
- Sleeping bag (or blanket)
